

Ramsgate

FARO

Improved policy automation for the next generation of decision-support systems utilizing business rules engines and artificial intelligence

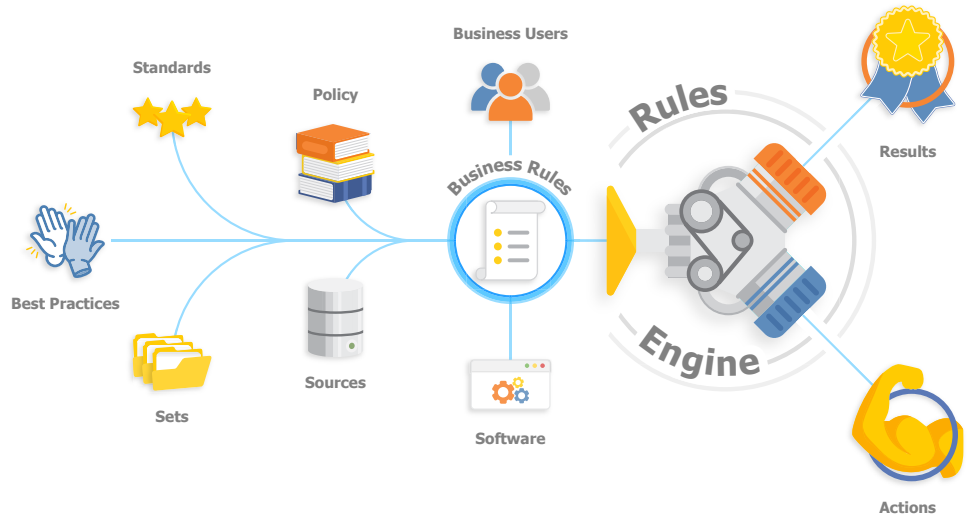

For organizations that require ability to frequently define, deploy, monitor, and maintain new rules and regulations

Product Overview

Delivered as a solution to modularize external business rules, provide ability to update and maintain embedded logic in code and utilize artificial intelligence and machine learning to aid in solution efficiency.

Business Level Benefits

- Effectively translate administrative, eligibility or regulatory policy
- Zero development by your staff
- Easy to show how outcomes tie to policy (e.g., why a decision was made)
- Works independently from other software, making modernization easier

Features

Verification Rules

Progressive verification of asserted information from third party sources

Policy Rules

Task advancement for specific outcomes and actions (approval, deferral, correspondence, etc.) based on policy

Decision Support

Smart data collection leading to machine learning analysis of data inputs to guide suggested outcomes based on confidence levels

FARO Differentiators for Government

You can count on FARO's Solutions to support customer confidence in IT execution:

- Pre-Engineered Solutions – We removed the “some assembly required” issues with low risk, proven solutions, that reduce delays in implementation
- Customer Site or Cloud Friendly – FARO works with any FedRAMP Moderate Public Cloud
- Team Support – We are integrated, with named resources that align as an extension of your existing team
- Deployment Support – Fully managed or shared responsibility
- Compliance Support – Unlike other vendors, FARO is at your side with NIST, FIPS, HIPAA, and State-specific compliance and audit tasks
- 24x7 Support – Our team is providing “around the clock” support including night and weekend deployments with your teams or on behalf of your teams
- Engineering Support – Connecting and supporting defined solutions in a complicated ecosystem of your environment

Compatibility Model

Ramsgate can be integrated with numerous popular products including:

- Oracle Policy Automation
- IBM + Red Hat Decision Manager
- InRule
- Drools
- Progress Corticon
- ChatGPT
- AWS
- Azure
