

# Sambro Portal

# FARO

Providing secure web or mobile device access to internal systems

For organizations requiring entry points to enterprise information to manage data and applications more easily

## Product Overview

Portals enable internal or external users and partners to view and organize data independently, often buying you time in making back-end changes while delivering a better constituent experience.

## Business Level Benefits

- Better constituent experience
- User access control
- Integration with other applications
- Improved security
- Wide range of personalization

## Features

### Functionality

Allow external users to access the information they need, trigger workflows that are connected to your other systems and data, and self-serve

### Flexibility

Ability to constantly add new features such as content management, analytics and reporting, and search navigation

### Focus

Deliver a one-stop client interaction experience on mobile and web

## FARO Differentiators for Government

You can count on FARO's Solutions to support customer confidence in IT execution:

- Pre-Engineered Solutions – We removed the “some assembly required” issues with low risk, proven solutions, that reduce delays in implementation
- Customer Site or Cloud Friendly – FARO works with any FedRAMP Moderate Public Cloud
- Team Support – We are integrated, with named resources that align as an extension of your existing team
- Deployment Support – Fully managed or shared responsibility
- Compliance Support – Unlike other vendors, FARO is at your side with NIST, FIPS, HIPAA, and State-specific compliance and audit tasks
- 24x7 Support – Our team is providing “around the clock” support including night and weekend deployments with your teams or on behalf of your teams
- Engineering Support – Connecting and supporting defined solutions in a complicated ecosystem of your environment

## Compatibility Model

Sambro Portal can be integrated with numerous popular products including:

- Power Apps
- .Net / .Net Core
- Java / Node.js
- SimpliGov
- OutSystems
- Salesforce
- Drupal
- Adobe
